TEXTBOOKS

1967

TABLE OF CONTENTS

General Information	II
Grants – Kindergarten to Grade 12	V
Selection of Textbooks	VI
Availability of Textbooks for Grades 1 to 13	VII
Schedule A – Books Approved for Permissive Use – Primary and Junior Divisions	1
Schedule B – Books Approved for Permissive Use – Intermediate Division	16
Schedule C – Books Approved for Permissive Use – Senior Division – Grades 11 and 12	33
Schedule D – Some Books in use in Grade 13	45
Schedule E – Supplementary and Reference Books – Grades 1 to 13	49
Publishers – Names, Addresses, Telephone Numbers	54

GENERAL INFORMATION

CIRCULAR 14 AND THE PROVISION OF TEXTBOOKS

- 1 Circular 14, *Textbooks*, is an annual publication authorized by the Minister of Education, which lists textbooks approved for use in most courses of study authorized for the schools. Wherever possible, books written by Canadian authors and produced by Canadian publishers will be chosen for these lists.
 - 2 Two of the criteria for the selection of books for listing in the Circular are that the content should be of sound scholarship and high interest level and that the approach should be broadly consistent with the aims of the course. In that sense, Circular 14 may be considered as an instrument for improving instruction.
 - 3 The system of multiple listing of approved textbooks attempts to maintain flexibility in the selection of titles in order to accommodate individual differences among pupils. It is a truism of modern education that if all pupils are to be challenged to the full extent of their capabilities, and that if pupils differ in the manner and rate in which they learn, no single textbook will serve all the pupils in a given grade in any given subject. The involvement of teachers, department heads, and inspectors in the selection of textbooks can therefore be a most effective means of in-service education. All textbooks listed for a subject should be evaluated before the principal selects titles for local use.
 - 4 When a new book is published, the publisher submits copies to the Curriculum Division for evaluation. The Department then sends a copy to each of several readers or critics for comments and criticisms. The books are examined in the light of certain established criteria, and reports are submitted to the Department. When the reports are received, they are reviewed in detail, and a recommendation is prepared. This process takes some time, but it is necessary to ensure by thorough examination that only the best textbooks are put into the hands of students.
 - 5
 - (a) Textbooks are those books that boards are required to provide in numbers sufficient for the use of pupils. Pupils in Grades 1 to 12 may not be required to buy such books.
 - (b) In all subject areas for which books are listed in Circular 14, textbooks must be selected from those listed in Circular 14, unless permission for another selection has been granted by the Minister.
 - (c) In those subject areas in Grades 1 to 12 for which no textbooks are listed in Circular 14 (for example, English Literature, the "authors" in Modern
-

Languages in Grades 9 to 12, and certain specialized, new, or experimental courses), textbooks to be provided by the school board are to be selected by the principal in consultation with the teachers, and the selection approved by board resolution.

During a period in which entirely new courses are under development, no textbooks are listed in Circular 14 for these subjects. Under such conditions, and during the interim period in which new books are unavailable, the principal and teachers may decide, subject to approval by the board, to use class sets of existing books, to adopt books of their own choosing, or to use collections of reference materials.

- (d) To provide students with a wider choice of some of the more recently developed materials in third language instruction (German, Italian, Russian, and Spanish) and pending the development of Canadian materials, special provision has been made to list several additional textbooks. Because the nature of these textbooks demand use in the classroom before a true evaluation can be made, they are given interim approval only pending a more complete evaluation.
 - (e) In the subject areas in which no books are listed in Circular 14, it may be decided locally to adopt paperback editions, for example in certain areas of English Literature. Because of the low cost of such books it may be more economical to give them to the students.
 - (f) In certain subjects, the nature of the instructional program, or the extent to which the textbook is used by the students may be such that the board would satisfy the requirement to provide textbooks "in numbers sufficient for the use of the pupils" by supplying class sets, each of which would serve for several classes. Such a situation might exist if it were decided to use a number of reference books instead of a single prescribed textbook. It would also apply to subjects in which regular homework assignments were not required.
 - (g) Boards are urged to provide schools and/or classrooms, upon recommendation by the principal and inspectors, with
 - (i) one or more reference copies of texts listed in Circular 14 other than those adopted as pupil textbooks,
 - (ii) one or more copies of reference books chosen by teachers from Schedule E of Circular 14 or from the appendices to certain Courses of Study.
 - (h) In evaluating books, teachers should understand that the most recent addition is not necessarily the best book on the list; it may merely present a different approach to the subject.
-

If a policy of continuous evaluation is in operation locally, the school is able to replace the least satisfactory texts, or to experiment with new or different texts, without having to discard usable textbooks. Assuming that about one-third of the textbooks must be written off annually as unserviceable, the replacements, if the principal and teachers so recommend, can be *new* or *different* books.

- 6 Since it is impossible to synchronize the times of publication of new books with the date of issuing of Circular 14, the approval of books submitted to the Department after the issuing of Circular 14 is announced in Supplements to that Circular. The announcement of a new book by means of the Supplement does not imply that the book should replace the one in current use. The purpose of a Supplement is rather:
- (a) to inform teachers and principals of the approval of a textbook for a new course for which there has not previously been an approved book, or
 - (b) to indicate approval of an additional title which is to be added to those listed in a given category. It is from the augmented list that the principal and teachers will make their selections the following year. The periodic approval of new books allows the teacher more time for careful evaluation than is possible if all new titles were announced at one time.
- 7 Although the titles of books to be used in English Literature courses are not shown in Circular 14, the full title (and the name of the particular edition if such is required) should be included in the list submitted to the board for approval. If a particular edition is required, the cost involved should be considered in the choice, and the price drawn to the attention of the board when formal approval is sought. It should be noted that the requirement of particular editions of English books in Circular 58, RP. I-4 and RP. S-4 and other Departmental bulletins applies in only a few cases. In all other cases it is considered that any standard edition which the pupil may have available to him may be used.
-

In approving the purchase of textbooks, boards are reminded that the legislative grant for textbooks is in the nature of a stimulation and assistance grant, which in many instances will not cover the total expenditure incurred in the purchase, storage, and handling of the books.

Schedules A, B, and C contain the titles of textbooks referred to in Regulation, General Legislative Grants, 1967, made under The Department of Education Act.

Books selected from Circular 14 and purchased by a school board remain the property of the board. When these books are lent to the pupils, they should be collected at the end of the school year so that they may be used again. In all cases the schools should see that proper care is taken of the books, keeping in mind that they belong to the board and are intended to be used for more than one school year.

SELECTION OF TEXTBOOKS

EXTRACTS FROM THE STATUTES OF ONTARIO

The following extracts from the Statutes of Ontario relate to textbooks:

THE DEPARTMENT OF EDUCATION ACT

- 12 (1) *Subject to the provisions of any statute in that behalf and to the approval of the Lieutenant Governor in Council, the Minister may make regulations with respect to schools or classes established under The Public Schools Act, The Separate Schools Act, The Schools Administration Act, The Secondary Schools and Boards of Education Act, or this Act, or any predecessor of any such Acts, and with respect to all other schools supported in whole or in part by public money,*
4. *requiring boards to purchase books for the use of pupils;*
33. *governing the selection and approval of textbooks, library books and reference books for use in Grades 1 to 13 inclusive.*

THE SCHOOLS ADMINISTRATION ACT

- 20 (1) *A teacher shall not use or permit to be used as a textbook in a prescribed subject in an elementary or secondary school any book that is not approved by the Minister or the regulations, and the Minister, upon the report of the inspector concerned, may withhold the whole or any part of the legislative grants in respect of any school in which an unapproved book is so used.*
- (2) *Where a teacher uses as a textbook, or negligently or wilfully permits to be used as a textbook by the pupils of his school, in a prescribed subject, a book that is not approved by the Minister or the regulations, the Minister, on the report of the inspector of the school, may suspend the teacher and the board that operates the school may deduct from the teacher's salary a sum equal to so much of the legislative grants as has been withheld on account of the use of the book or any less sum at its discretion.*
- (3) *Subject to the written approval of the board that operates the school, a teacher may replace any approved textbook that is in actual use in an elementary or secondary school by any other approved textbook on the same subject.*
- 22 (2) *It is the duty of a principal, in addition to his duties as a teacher,*
(f) to prevent the use by pupils of textbooks that are not approved under the regulations;
- 34 *Every board shall,*
- (11) *provide, without charge, for the use of the pupils attending the school or schools operated by the board, the textbooks that are required by the regulations to be purchased by the board.*
-

AVAILABILITY OF TEXTBOOKS FOR GRADES 1 TO 13

To ensure an adequate supply of textbooks in time for the opening of school in September, it is recommended that orders should be forwarded to the publishers by the end of April, 1967. The orders may specify a delivery date that will coincide with the time the books are needed in the schools. If books are ordered early, publishers can plan reprints in time to avoid shortages.

Where books for Grade 13 are supplied through local retailers, it is suggested that the books be ordered early, with a convenient delivery date specified.

Where publishers allow surplus copies to be returned, it is recommended that the surplus supply be sent back as soon as possible, so that the textbooks can be made available in other areas where they may be required. This is especially important in Grade 13, where certain prescriptions are in effect for one year only.

It is no longer necessary for boards to submit book lists to the Superintendent of Curriculum.

SCHEDULE A

BOOKS APPROVED FOR PERMISSIVE USE — PRIMARY AND JUNIOR DIVISIONS

Schedule A contains the titles of books approved for permissive use in Grades 1 to 6 of the several types of schools. Pupils will not be required to buy these books. School boards will be required to provide textbooks selected from Schedule A in numbers sufficient for the use of the pupils.

There is a need to recognize the trend away from the use of single text per grade as the principal instrument of instruction, and towards the use of a number of books in any subject area. Educational research has confirmed the fact that there are varying rates and degrees of pupil growth and maturity. Teachers must be provided with an ever-increasing selection of books and instructional materials from which to choose those that meet the differing needs and aptitudes of the pupils. The "learning through discovery" theory now widely held can best be implemented if pupils have regular access to a number of books.

Pending the report of the Committee on Aims and Objectives of Education in the Schools of Ontario, Circular 14 must be free from long-term commitments. Until notice is given to the contrary, therefore, the books listed for the Primary and Junior Divisions in Circular 14, and its supplements, are approved only for the year in which they are listed. Publishers, should also be freed from long-term commitments to keep titles in print. Accordingly, a publisher is no longer obligated to keep a book in print beyond the calendar year in which it is listed in Circular 14.

The list of books approved for grant purposes for use in the Primary and Junior Divisions has been expanded to include books that do not "cover" an entire course, and would, therefore, not qualify as textbooks under a narrow definition of that term. Some books will take a unique approach to the subject, and cover only part of the Ontario course of study; others will challenge advanced pupils with a more sophisticated treatment of the course; still others will develop one or more topics in depth and provide enrichment or resource material for some pupils.

Wherever possible, books written by Canadian authors and produced by Canadian publishers will be chosen for listing in Circular 14. Reference books of foreign origin will, of course, be listed in courses of study, library lists, and reading lists. These may be purchased through the library grant, or through additional funds provided by boards.

SCHEDULE B

BOOKS APPROVED FOR PERMISSIVE USE – INTERMEDIATE DIVISION

Schedule B contains the titles of books approved for permissive use in Grades 7 to 10 of the several types of schools. Pupils will not be required to buy these books. School boards will provide textbooks selected from Schedule B in numbers sufficient for the use of the pupils.

In the selection of texts it is imperative that provision be made for the varying interests, needs, and abilities of the pupils. This will necessitate a degree of flexibility in choice of texts for the several courses, classes, branches, and programs. In history, for example, it will be preferable to provide in each classroom some copies of each of several approved texts for a grade, since history is “no body of absolutes”, and pupils ought to have an opportunity to compare a number of viewpoints and interpretations of historical events. In English Literature, in Grades 9 and 10, provision should be made for the study of different texts in the same grade in succeeding years, and no attempt should be made to require the same texts to be studied throughout a grade or a school system in any particular year. Failure to provide for flexibility as outlined can result in a rigidity of thinking and a lack of appreciation which are the antithesis of sound educational objectives.

INTERMEDIATE DIVISION

ENGLISH

GRADES 7 AND 8

Boyd: *Literature and Life* – Gage

Book 1	3.50
Book 2	3.50

SCHEDULE C

BOOKS APPROVED FOR PERMISSIVE USE — SENIOR DIVISION — GRADES 11 AND 12

Schedule C contains the titles of books approved or recommended for use in Grades 11 and 12 of the several types of schools. Pupils will not be required to buy these books. School boards will provide textbooks selected from Schedule C in numbers sufficient for the use of the pupils.

In the selection of texts to be used in English literature, in the authors studied in modern language courses, and in other subject areas where texts are needed, and where no titles are included in the approved lists in Circular 14, it is imperative that provision be made for the varying interests, needs, and abilities of the pupils. This will necessitate a degree of flexibility in choice of texts among the varying courses, classes, branches, and programs. In history, for example, it will be preferable to provide in each classroom some copies of each of several approved texts for a grade, since history is “no body of absolutes”, and pupils ought to have an opportunity to compare a number of viewpoints and interpretations of historical events. In English literature provision should be made for the study of different texts in the same grade in succeeding years, and no attempt should be made to require the same texts to be studied throughout a grade or a school system in any particular year. Failure to provide for flexibility as outlined can result in a rigidity of thinking and a lack of appreciation which are the antithesis of sound educational objectives.

SCHEDULE D

SOME BOOKS IN USE IN GRADE 13

Schedule D contains the titles of some of the books in use in Grade 13. The list is not necessarily complete, nor is it intended to be restrictive. It should not be interpreted as limiting the teacher's freedom of choice in this grade. Expenditures to purchase these books are not to be included in claims for reimbursement grants.

The authors prescribed annually for the examination in English Literature, in Français, and in other languages are listed in Circular 58 for the current school year.

SCHEDULE E

GRADES 1 TO 13 – SUPPLEMENTARY AND REFERENCE BOOKS

Schedule E contains the titles of books that do not qualify for inclusion in previous Schedules, either because they do not cover a complete course or because they are not strictly pupils' textbooks. They are, however, related to parts of the courses of study, and are of sufficient merit to warrant inclusion in school or classroom libraries or to serve as reference books. Teachers are referred to the several courses of study which list additional reference books for teachers and pupils. Expenditures to purchase these supplementary and reference books are not to be included in claims for reimbursement grants for textbooks.

SUPPLEMENTARY AND REFERENCE BOOKS

MEMORANDUM TO: REGIONAL AND AREA SUPERINTENDENTS
PROGRAM CONSULTANTS
MUNICIPAL DIRECTORS AND SUPERINTENDENTS
PRINCIPALS OF SCHOOLS
SECRETARIES OF SCHOOL BOARDS
TEXTBOOK PUBLISHERS

RE: PURCHASE OF TEXTBOOKS

1. Attention is drawn to the following extracts from the Acts and Regulations pertaining to the administration of education in Ontario as they relate to the purchase of textbooks:

(a) The Schools Administration Act, Section 34

Every board shall,

(11) provide, without charge, for the use of the pupils attending the school, or schools operated by the board, the textbooks that are required by the regulations to be purchased by the board.

(b) Regulation, Elementary and Secondary Schools - General 1968, Section 7

(1) Subject to the approval of the board, the principal shall select from the approved list of textbooks, the textbooks for the use of pupils in Grades 1 to 12, both inclusive.

(2) Where no textbook for a subject is included in the approved list, the principal shall select suitable textbooks where required, and such textbooks that are being introduced for use in the school for the first time shall be subject to the approval of the board.

(3) A board shall purchase and provide without charge and in sufficient quantity, the textbooks selected in subsections 1 and 2 for the use of pupils in Grades 1 to 12, both inclusive, in schools under the jurisdiction of the board.

2. In 1951 an agreement was made between the Department of Education and textbook publishers under which the latter

(over)

were to use golden-rod coloured paper to invoice school boards for textbooks approved for use and listed in Circular 14, Textbooks. Effective January 1, 1968, this procedure has been discontinued. Textbook publishers will no longer be requested to use golden-rod coloured paper to invoice school boards for textbooks selected from Circular 14, Textbooks.

A handwritten signature in cursive script, reading "G. L. Duffin".

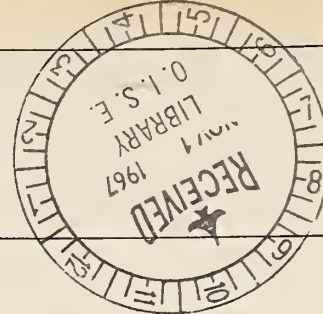

G. L. Duffin,
Assistant Deputy Minister.

February 9, 1968.
